

Points of Interest:

Central to this map is a mountain range, probably quite vast due to the empty space beyond.. Tucked away in these mountains, with a river flowing right next to it is a POB Sanctuary. Up in the mountains are 200 very impoverished people with a good moral compass; down in the lower hills, North, are 75 people suffering from criminal gangs in the area, and even in the settlement; and this settlement is a choke point in the river, with a gated policy for anything travelling through, including boats moving downstream.
